SUMMARY

Skilled Android Developer with 3+ years of experience. Proven in developing new features, troubleshooting, and delivering high quality mobile and desktop applications. Well versed in database design. Proficient in using React, Java, JavaScript, C#, Kotlin, and SQL across many projects. Experienced with Git/GitHub for version control, collaboration, and documentation. Interested in collaborative and innovative work environments.

TECHNICAL SKILLS

- **Languages:** Java, C#, Kotlin, JavaScript, SQL, Python, CSS, HTML
- **Frameworks:** React/React Native, Xamarin, WinForms
- **Tools:** Android Studio, Visual Studio, Git/GitHub, Expo
- **Databases:** Microsoft SQL Server, SQLite

EXPERIENCE

Android Developer   **July 2022 - Present**
ProCat Distribution Technologies
Gibbsboro, NJ

- Designed and created a cross-platform productivity mobile application using React Native, featuring animated graphs and charts, login authentication, and customizable themes.
- Developed a mobile application providing managers real time updates on customer issue tickets, customer site outages, and more.
- Extensive involvement in database design using Microsoft SQL Server.
- Brought many existing projects onto GitHub, which standardized their release process and documentation, providing definitive version control and greatly reducing the risk of data loss.
- Published multiple mobile applications to the App Store through the normal and unlisted distribution release processes.
- Worked alongside others to troubleshoot and solve customer issues and bugs, improve user interfaces, and develop new features for a wide range of existing Android applications, .NET desktop applications, and databases.

EDUCATION

Bachelor of Science: Computer Science   **May 2022**
Mathematics Minor
Rowan University, Glassboro, NJ
GPA 3.98, Summa Cum Laude
